

Carwash Equipment Quote Checklist

Request the evidence below, then record each supplier's answer on the same basis.

Site / address: _____

Currency: _____ Quote date: _____

Format: ☐ Self-service ☐ In-bay automatic ☐ Conveyor

Supplier A: _____ Supplier B: _____

Questions to resolve	Evidence to request	Supplier A	Supplier B
Which wash format and charging basis does this quote cover?	Equipment schedule; charging menu. Record format and price basis.		
Which wash package and operating conditions underpin the fresh-water figure?	Model specification with measurement date. Record package, units and operating conditions.		
What reclaimed water can this system use, and at which wash stages?	Reclaim design; equipment compatibility by wash stage and treatment level.		
Where will the wastewater go, and what local conditions apply?	Drainage plan; written conditions from the receiving wastewater authority.		
What site capacity and utility costs are documented?	Utility confirmations and current tariff; supplier connection requirements.		
What does the installed quote include and exclude?	Dated itemised quote: civil, drainage, electrical, treatment, commissioning and maintenance.		
What site permissions must be resolved for this business activity and location?	Dated zoning, site-use and licensing confirmation for the actual address.		
What supports paid wash volume separately from equipment capacity?	Dated sales records or observations; separate supplier cycle and handling specifications.		

Record document dates, units and exclusions. Keep per-minute inlet flow separate from water used per wash.
